A break from politics, this is a 1931 photo of the McClary family in front of I believe the farm at the beginning of Meadow Pond Road. Rear- Frank, Leona, Esther, Jack, George (my Dad). Front- Marion, Joe, Steve. Share your roots.

Julie Sforza-Smith The little cape belonged to my/and Joann's family and our Dads were born there. My Dad was born in 1928 if that helps, but I don't think it was part of the Derby Farm.

Brenda Currier I had no idea! I love Betty's house (your family's house). 😊 I had many visits with Betty in the "backhouse" kitchen. Did you grow up there?

Brenda Currier oh sorry so you had the old antique beige one on the right? I was talking about Betty's across the road - I think that's the one the Mooney's lived in? I love both houses 😊

Julie Sforza-Smith She was a nurse and lived by herself so if there were it would have been her Father and Mother.
