

LACONIA DEMO

Gilmanton and Allen's Mills. •

This is a critical time with our people. Mrs. Mary Weeks Merrill at Loud Ridge, and Oscar C. Dow are both very sick with pneumonia. Little Elsie Baker has an attack of acute indigestion, also symptoms of pneumonia, and there are several other cases of illness.

We are saddened beyond words to announce the sad tidings that our true friend and family doctor has been taken from us. Always genial, a true friend to all and a man whose counsel was always to be relied on. As we have heard so many say "We feel as though we had lost one of our best friends," and surely Gilmanton has lost a man, a doctor, and a friend that can never be replaced. Dr. Brown was too well known for us in our feeble way to make any attempt to mention his good qualities. His works, his life, and his ever cheerful presence among us will ever be remembered and cherished.

DR BROWN
