"Duncan Albert Geddes, Sargeant Air Corp. B- 24 (Liberator) left base in England 17 February 1946 on a combat mission to Aschaenbeurg, Germany. and last seen on that same date over the North Sea about 70 miles northeast of the coast...Search made but no sign of crew or ship found..." "Under section5 P. L. M. S. 489 77th Congress as amended...death is presumed to have occurred."

My Uncle Duncan had been born on May 26, 1924 and grew up in Lower Gilmanton on the farm, with his parents Jack and Florence Geddes, and siblings Mary and David. Mischievous and lovable, he lost his life before his 20th birthday. The heartbreak felt by the family and by all those who waited in vain for loved ones who lost their lives is the reason we observe Memorial Day. Prayers and remembrance...
