Gilmanton Iron Works,
New Hampshire

Gentlemen;

I wish to call your attention to the dangerous condition on the Camp Leo highway from 107 to Guinea Ridge road especially at the spot where the old barn stood, there are three large rocks sticking up which endanger any car passing over them or near them. One particularly is in the center and is just high enough to tear a hole in a gas tank as it did to mine, I had to pay for this but if it happens again I will look to you for payment as the matter is now of record.

One of the rocks is very large and is about a foot above ground the others are nearby about 300 or 400 hundred feet from each other in the vicinity of the old barn .

Hope that you will look inot the matter and have same corrected soon.

Yours truly

Richard P. Pavlick
