Carol Tierney Ouellette The Academy looking beautiful

Jane Sisti Carol Tierney Ouellette it's the Academy building/Town Offices. Church would be to the left looking in this direction

Carol Tierney Ouellette Jane Sisti I caught that and corrected, just waking up sorry 🤪

Brian E. King Lower left rear corner is where I spent 5th grade some 50+ years ago. The entire 5th and 6th grades were in a single room then back then and were taught by one teacher (Mrs. Allard. No doubt that's not the case anymore.

Evelyn Sanville Brian E. King I don't remember you, but I too went all eight grades in that building (school) and had Mrs. Allard.

Brenda Currier Brian E. King Mrs Allard was our 6th grade math teacher in the "new school". I think it opened in 1966.

Dodie Smithers Brian E. King my husband Tom Smithers also went to school here, sharing classrooms with other grade levels. His class was the first eighth grade class who graduated from the Gilmanton School on Rt 140 before heading off to Laconia to graduate high school. Now High School students go to Gilford. He remembers you.

Brian E. King Dodie Smithers yes I remember Tom. He was a few grades ahead of me. The coolest thing I still remember from that year is when a local trapper (Mr. Stendor I believe) brought in a bobcat that he had trapped. It was frozen solid and huge. Pretty cool for a little kid to see in real life

Pam Webster Paquette Brian E. King I went to 3rd (64-65) and 4th grades(65-66) in the front left room. There was no room for my small class at the IW school. 5th grade we all went to the "new school".

Brian E. King Pam Webster Paquette yes I remember you. You were a grade or 2 behind me. Mrs. Lindsey was the 4th grade teacher.....had to dust off the memory circuits for that one lol.

Pam Webster Paquette Brian E. King You did a great job! When I went to 1st grade it was in the IW where the fire station is now. All 8 grades were there. The IW and the Corners were still very separate and distinct at that time. The next year the first 4 grades were at the IW and the remaining grades were all at the corners. It was a very small town then

Pam Webster Paquette Brian E. King If I remember right, you lived on middle route - coming in from the Route 140 end it was on the left

Brian E. King Pam Webster Paquette yes 3 miles in across from the pond. I believe it's called Grant hill rd. now? Parents are both long gone now and the place got sold many years ago. Still have fond memories of Gilmanton though. You lived in the Iron Works across from the store if I remember correctly?

Pam Webster Paquette Brian E. King yes - you have a great memory! My folks sold the house in 1978 and moved to Gilford-I had 3 younger siblings going to GHS all very involved in sports etc - it was easier being closer

Terry Meena Beautiful picture!

Linda Willard Gullage I went there in the late1950s early 1960s Mrs Allard was principal when I graduated in 1962

Brian E. King Linda Willard Gullage Mrs. Allard was an awesome teacher. The world would be a much better place with more teachers like her. She made sure you learned and would not take no for an answer.

Linda Willard Gullage Brian E. King No one messed with Mrs.Allard!
